

FastManager First Time Installation

Download & Install FastManager

First download the FastManager “setup” program:

Go to the [FastManager website](#) and select the appropriate option from the Download menu:

Once the setup program has downloaded, locate it in your 'Downloads' folder (or wherever your browser puts the downloads) and double-click on it to start the FastManager installation process:

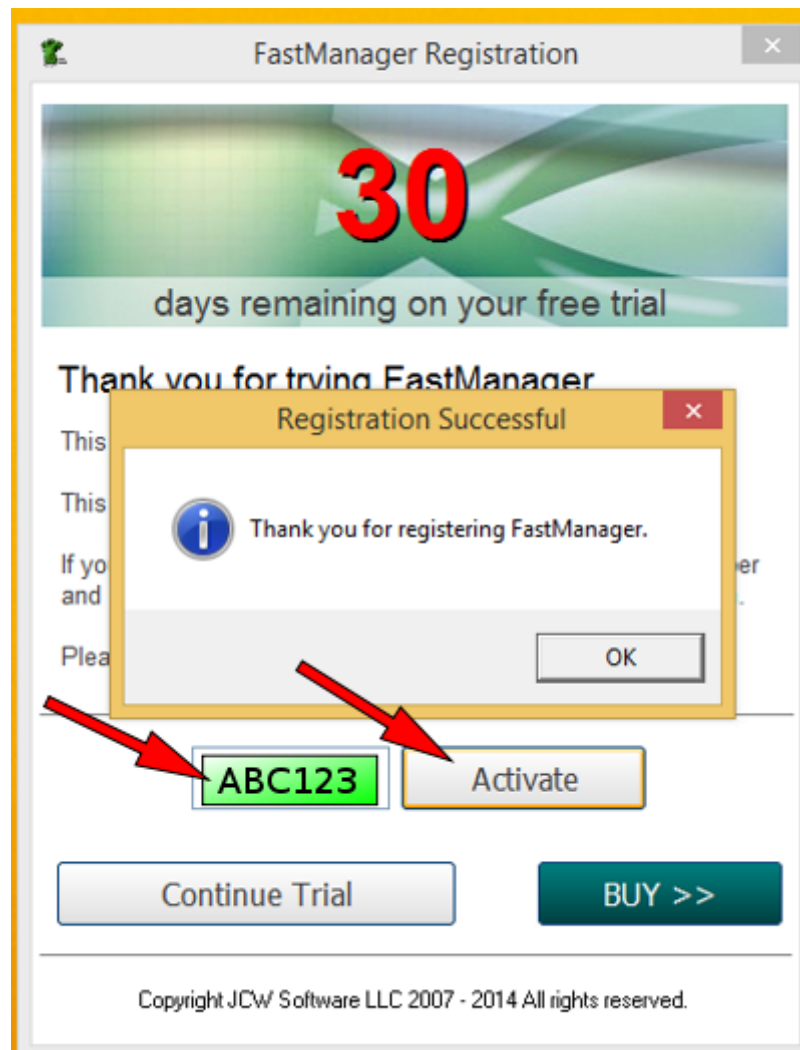

If you haven't registered yet, or you don't have a serial number - When you start the program, you will be able to select **Continue Trial** to keep using FastManager in trial mode, as well as select which version you wish to try out, until the trial period runs out.

Register A Computer

Double-click the shortcut on your desktop to start FastManager

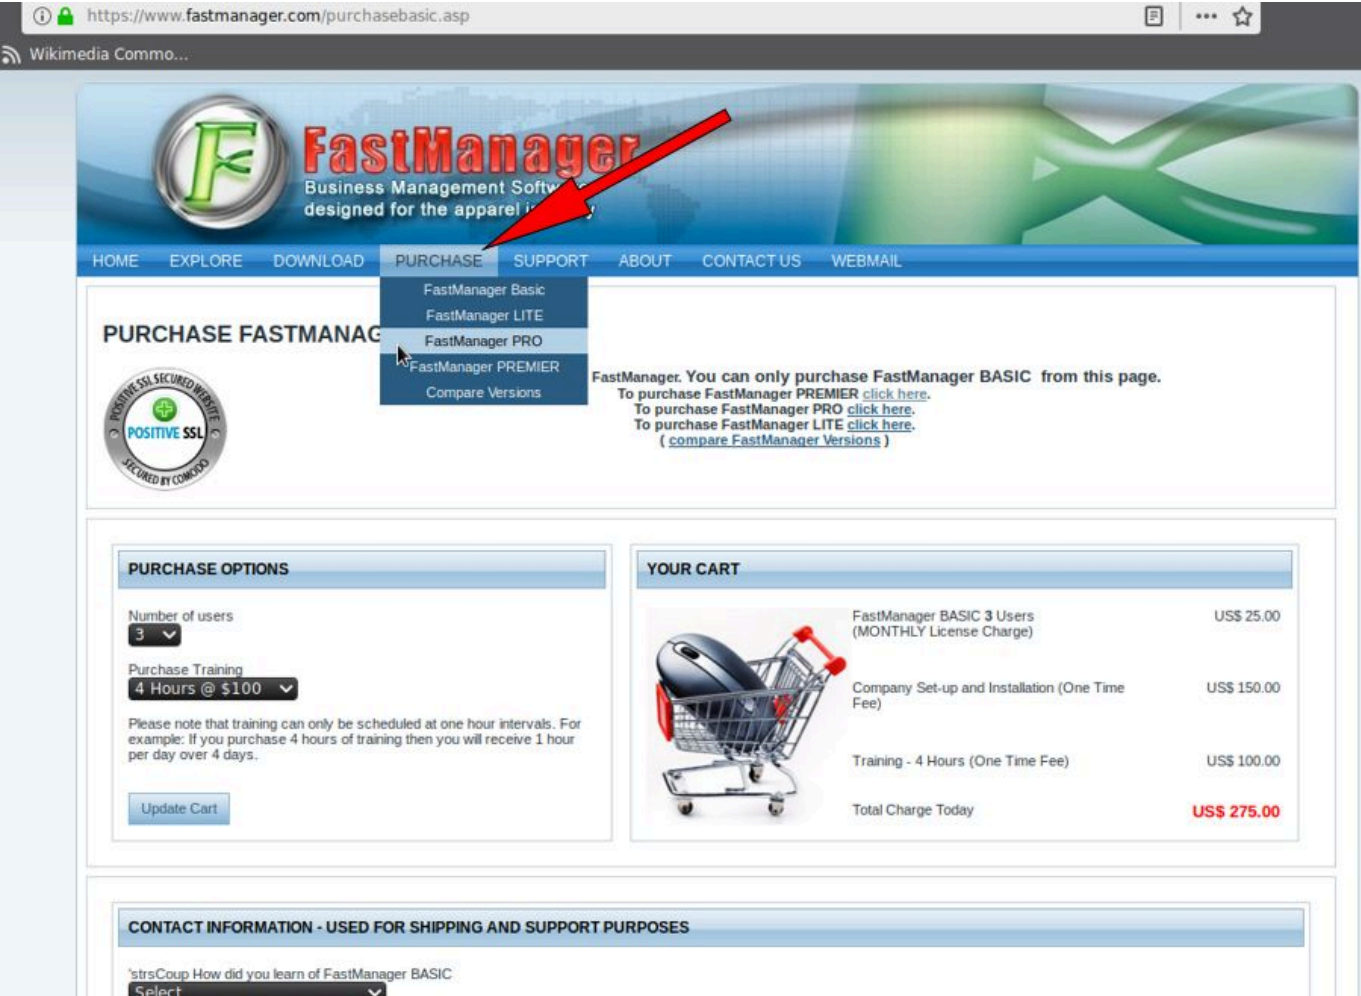

- If you have not registered this computer, when you start FastManager, you will be greeted with a dialog which indicates how many days are left on your Trial period.
 - At the bottom of this dialog, enter your [Serial Number](#) and click on **Activate**

If you only wish to TRY FastManager, simply click on Continue Trial

Sign Up

If you don't have a serial number, you can get one by signing up to a subscription: go to our website and select the version you would like to sign up for from the Purchase menu

Once you complete the purchase, you will receive an email containing your Serial Number

YOUR TRIAL SERIAL NUMBER

Dear Customer,

Thank you for once again trying FastManager.
You are making a very good business decision. You will continue to see just how much the program can help streamline, standardize and manage your company!

Below are some links to very useful information and additional help on our product. If you have any questions what-so-ever please don't hesitate to [contact us](#).

[Click here](#) to download FastManager if you have not done so already.

Herewith the serial number that will extend your trial period:

ST5-VG7

This serial number will enable you to use FastManager up until **12/30/2017**.

Training Videos and Manual
We have a dedicated web site, <http://www.fastmanagerhelp.com>, to host our online documentation. The content on this website is updated on a weekly basis, so please check back frequently.

NOTE that whenever you use this serial number, such as when Registering a new computer, or downloading the setup from our website - you will *always* enter it WITHOUT the dash. Eg:

ABC123 = *Correct*

ABC - 123 = *incorrect*

You will use the SAME serial to activate FastManager on all your computers (or as many computers as your serial allows for)

Update FastManager

The process for updating FastManager is simply a matter of downloading the update from [our updates](#)

page, and then installing it on the computer:

- Go to www.fastmanager.com and check on the home page under the Latest Update announcement (to the right of the page)

Latest Update

April 29 2016 - Rev 2014.86
Do you have the latest FastManager update. Each new revision is packed with new features, most of them suggested by our customers.
[Update Now](#)

Company Highlights

Since 1981 2014

- Then click on the link to be taken to the downloads page
- From there you can download the latest update

The image shows the FastManager update manager webpage. At the top is the FastManager logo and navigation links: HOME, EXPLORE, DOWNLOAD, PURCHASE, SUPPORT, ABOUT, CONTACT US, WEBMAIL. The main content area has a heading "Welcome to the FastManager update manager." followed by text about the latest revision (2014.86) and instructions to run updates on every computer. A red box highlights the "April 20 2016 - Version 2014 Revision 86" update entry, which includes a "Download" link. A red arrow points from the "Download" link to the download progress bar in the second image. Below the highlighted entry is another update entry for "November 06 2015 - Version 2014 Revision 85" with a "Download" link.

Welcome to the FastManager update manager.
Our latest revision is 2014.86. Please remember to run this update routine on every computer that FastManager installed on it. Every computer should run the same revision.

You need to have FastManager installed on your computer in order to run these update patches.
You can also run these updates to downgrade to a previous version.

PLEASE NOTE: You only need to run the latest update. All previous updates are included in the latest update

April 20 2016 - Version 2014 Revision 86 [Download](#)

Minor Update
Fixed the SSL/TLS support for Alpha Broder integration, after Alpha stopped supporting older SSL versions

November 06 2015 - Version 2014 Revision 85 [Download](#)

Minor Update
Added support for TLS when emailing PO's. Fixed a bug with the Work Order List. Added support for long TLD's in email addresses. Fixed the unnecessary message popup when d Payments. Added minor improvements to the Integrator.

The image shows the FastManager update manager webpage with a download progress bar overlay. The progress bar is titled "fastmanagerupdate_201486(1).exe" and shows a green progress bar at approximately 10% completion. Below the progress bar, it says "1 minute, 18 seconds remaining — 4.0 of 22.4 MB". A red box highlights the progress bar, and a red arrow points from the "Download" link in the first image to the progress bar. The webpage content is the same as the first image, but the "PLEASE NOTE" text is slightly different: "PLEASE NOTE: You only need to run the latest update. All previous updates are included in the latest update file."

April 20 2016 - Version 2014 Revision 86 [Download](#)

Minor Update
Fixed the SSL/TLS support for Alpha Broder integration, after Alpha stopped supporting older SSL versions

- Locate the file fastmanagerupdate_201xxx.exe in your downloads folder

- double-click the file to start the install process
- accept all the defaults
- reboot if prompted

If you have FastManager installed on multiple computers, it is important that you update all of them to the same Revision Number
