

FastManager First Time Installation

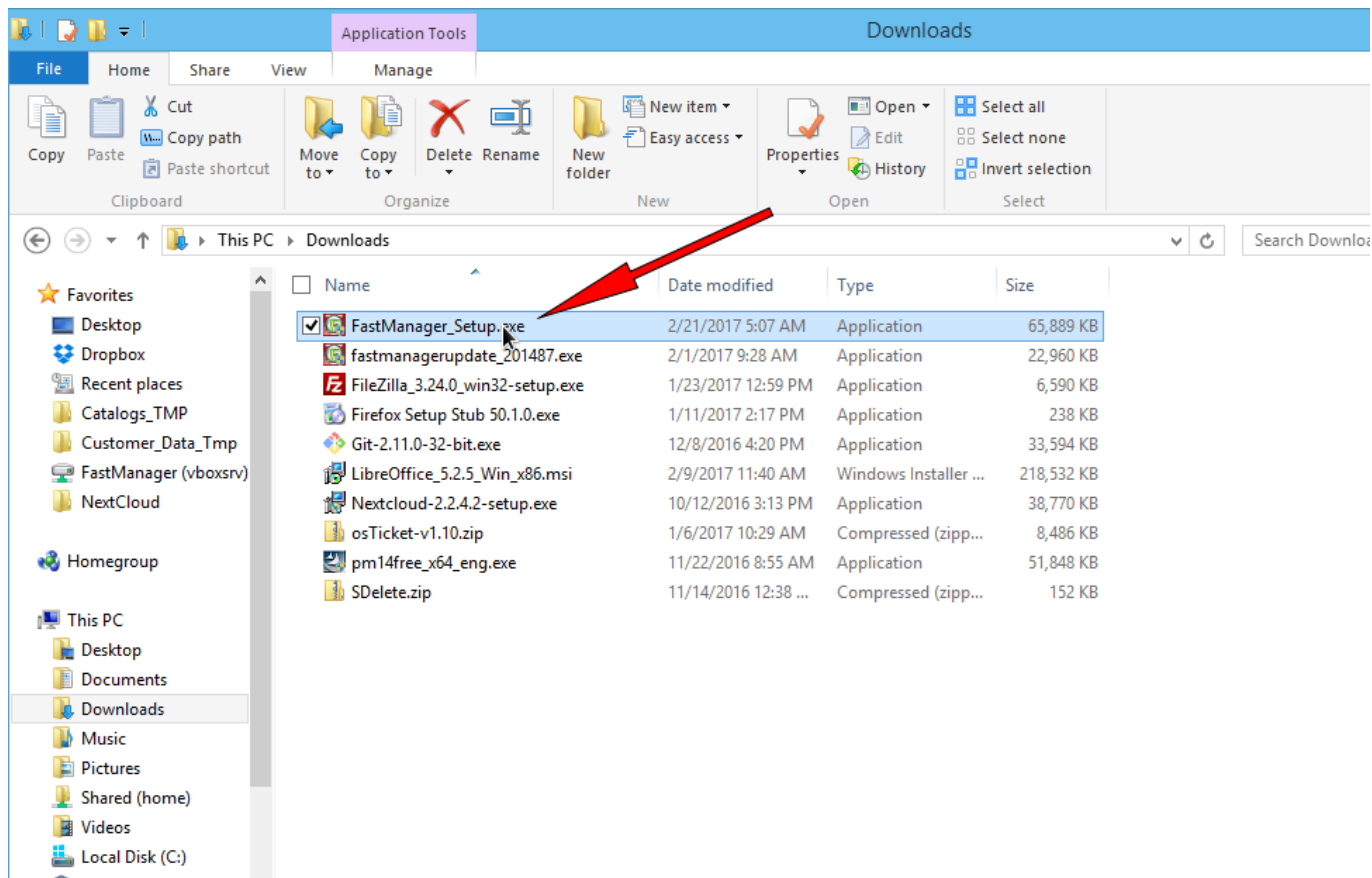

Download & Install FastManager

First download the FastManager “setup” program:

Go to the [FastManager website](#) and select the appropriate option from the Download menu:

Once the setup program has downloaded, locate it in your 'Downloads' folder (or wherever your browser puts the downloads) and double-click on it to start the FastManager installation process:

If you haven't registered yet, or you don't have a serial number - When you start the program, you will be able to select **Continue Trial** to keep using FastManager in trial mode, as well as select which version you wish to try out, until the trial period runs out.

Update FastManager

The process for updating FastManager is simply a matter of downloading the update from [our updates page](#), and then installing it on the computer:

- Go to www.fastmanager.com and check on the home page under the Latest Update announcement (to the right of the page)

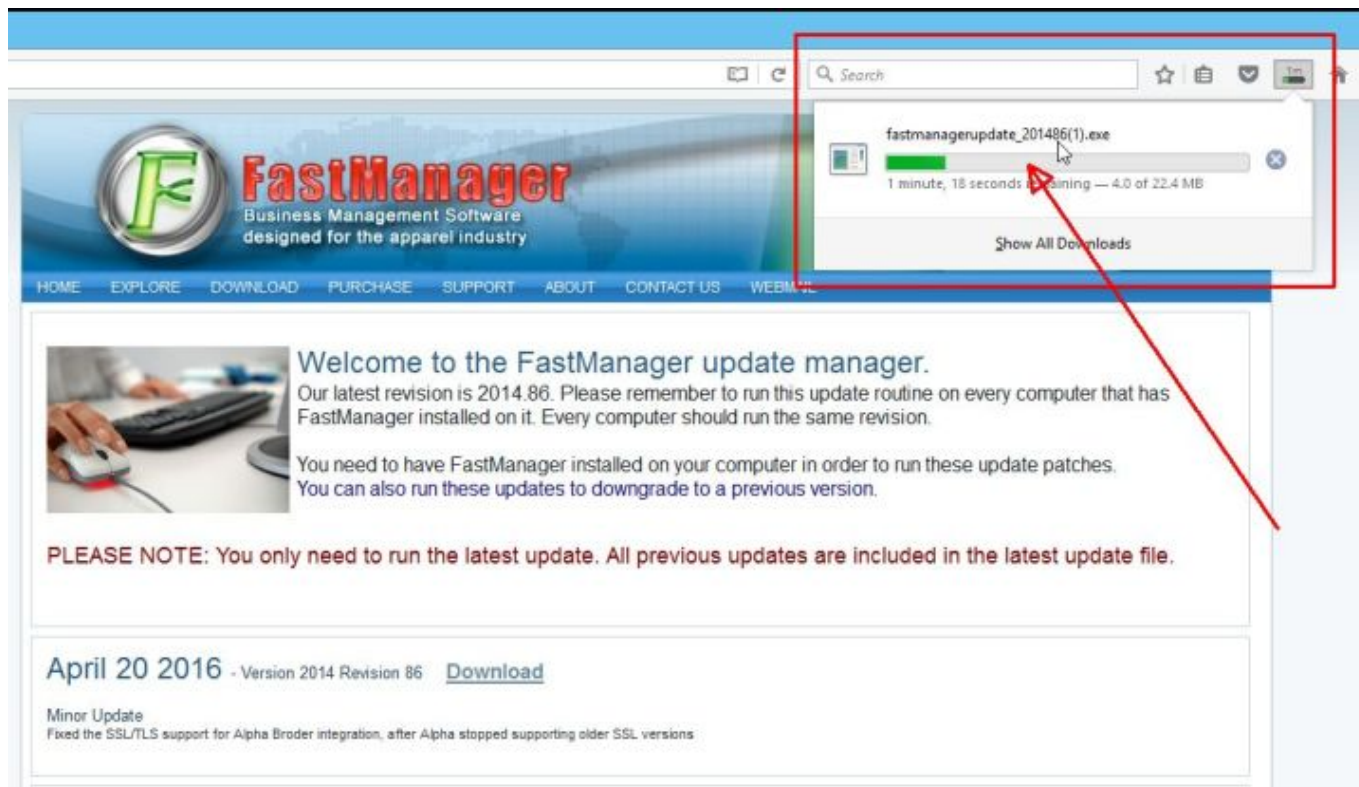

The image shows the FastManager website homepage. The header features the FastManager logo and navigation links: HOME, EXPLORE, DOWNLOAD, PURCHASE, SUPPORT, ABOUT, CONTACT US, and WEBMAIL. The main content area includes a welcome message, a list of features (Create Quotations, Create Work Orders, Create Invoices, Process Payments, Schedule Production, Track Order Details, Export to QuickBooks, and more), a 'TIME IS MONEY!' section, and a 'LATEST UPDATE' section. The 'LATEST UPDATE' section is highlighted with a red box and a red arrow pointing to the 'Update Now' link. The update information states: 'April 20 2016 - Rev 2014.86. Do you have the latest FastManager update. Each new revision is packed with new features, most of them suggested by our customers. [Update Now](#)'.

- Then click on the link to be taken to the downloads page
- From there you can download the latest update
